

MOTIONsweep

By leveraging cutting-edge robotic cleaning technology, we help businesses reduce costs, optimize cleaning processes, and improve sustainability.

HIGH-TECH

MOTIONsweep autonomously maps its environment and ensures safe, reliable navigation, even in complex, sensitive, or hard-to-access areas—reducing risk and manual effort.

SMART

Intelligent navigation with real-time, automatic mapping of cleaning areas—delivering maximum precision and operational efficiency.

HIGH-EFFICIENCY

Designed for 24/7 operation with automated workflows, customizable schedules, and full operational flexibility.

VORTEILE

CLEANING PERFORMANCE

Up to 1200 m²/h

ROBUST

Built with high-quality materials and components

SELF-CLEARING

Autonomous emptying of the debris collection container

SIMPLE

Plug and Play

SUSTAINABLE

Resource-efficient cleaning

MOTIONcare

Service Portfolio matching specific customer needs

PRODUKTDATEN

Dimensions	800 x 700 x 300 mm
Autonomy	Up to 5 hours
Carging Time	2 hours
Navigation	3D Laser-Sensors
Behältervolumen	35 Liter
Safety	Not-Stopp, visuelle Warnsignale
Cleaning Performance	Up to 1200 m ² /h

MOTIONsweep

Use Cases :

- Industrial Halls & Storage Areas
- Manufacturing Facilities
- Logistics & Loading Areas
- Parking Areas
- Hangars
- Filling Plants
- Convention & Exhibition Centers
- Shopping Malls
- Sports Stadiums & Arenas
